EXPERIENCE

Intern

May 2023 - June 2023

The Spark Foundation

Virtual, Live

- Developed a Html, Css and Javascript donation website with and intuitive user interface and added a feature to donate money.
- Integrated Razor Page for secure donation transactions and automated email receipts.

Intern

April 2024 - Present

Business Web Solutions

Virtual

- Utilizing online resources and supplementary learning materials recommended by Business Web Solutions to deepen understanding and proficiency in Full Stack Web Development concepts.
- Honing skills in HTML, CSS, JavaScript, Python, Django, and more with real world projects.

PROJECTS

MEETING SCHEDULER | *Next.js, React, Next-Auth, Firebase, Tailwindcss*

Live

- Developed a Meeting Scheduler application as the capstone project for my final year of studies, facilitating efficient scheduling and management of meetings for individuals and teams.
- Dynamic calendar integration: Seamlessly sync with your calendar to avoid conflicts and keep track of appointments.

PERSONAL PORTFOLIO | *React, Vite.js, Tailwindcss, React-TypeAnimation and React-Icons*

Live

- Developed a personal portfolio website using React, Tailwind Css and JavaScript to showcasing essential details and personalized messaging feature.
- Implemented a feature to allow visitors to send personalized messages directly to me for inquiries or collaboration opportunities.
- Because of its unique design I gave different pages to each components which makes it more responsive and attractive.

FOOD ORDER WEBSITE | *React, Vite.js, Tailwindcss and React-Icons*

Live

- Developed a Food Order Website with React and Tailwind Css to manage the orders on website.
- It offers a responsive user interface witch search bar and Add To Cart Option and also has Order Successfully alert.

CERTIFICATIONS

CODE YOGI
